

BIG BAD BRITAIN

Written By Ethan Wong

There are many things wrong with the British culture these days. E.g. Money, Clothing, People, Crime, Other Cultures/Religion, War, Accidents, Bullying in Schools, Power.

Money

Good or Bad:

Money in Britain is a very big issue as many people think that money is the world. Well, it isn't. Even though we may need money to survive and buy ourselves luxuries it is not the most important thing in the world. There are many interpretations of what is the most important thing in the world...but money isn't. It is the main cause of crime, greed and sadness. The money system is good and bad at the same time. People get what they want which is good but some people get mugged for their money. What do you think of money?

Rich & Poor:

Money also separates the British community. This happens by the rich people (celebrities, sports players, singers, good workers etc.) being high up in the system and the poorer/medium wage people being lower in the system. Poor people are just mere bugs to the rich people of the world. The celebrities are basically untouchable to the poor

people. Money also causes corruption (E.g. paying to get away with something).

Debts: When people are short on money and need money then they are forced, by themselves, to get a loan. But paying off the loan can be the difficult part. If people cannot pay back the money they borrowed on time then their debt ever increases till they can pay back the debt. This can cause a lot of trouble and stress to not only the person whom the debt belongs to but also the people that gave the loan. Sometimes people turn to a life of crime to get their money but once they have done it once and succeeded then they have an urge craving to do it again and again and again.

Crime:

Most crimes are performed for money and are caused by money. 50% of all crimes are performed because the criminal needs money. This maybe a reason to destroy the money system.

Summary:

People work for money so that they can have a good living but when this money is taken away from them then all their work has been flushed down the drain and it pulls them far down the system. Is this acceptable?!

It is also bad that the rich people are high up in the system and poor people are low in the system. As I said before, the poor people are little ants to the rich people. These rich people can also be corrupt and evil. They think that they can buy their way out of everything. This is not acceptable at all! Why should we stand to be treated this way?!

Debt problems rise and rise leading to great big money debts. This upsets people a lot.

Crime is also increasing more and more due to money. Maybe if money was deleted from the world then the world would be a better place.

What do you think?

Clothing

What is wrong with clothing?

What people wear also separates them from society and others. There are many "types" of people. Gangsters, Drug lords, rude boys, Chavs, Goths, Hoodies etc. In case nobody has noticed, they all wear different things!

The gangsters and drug lords wear black suits and sunglasses.

The Goths wear black all round and sometimes mascara. They also put black lipstick on.

The Hoodies, obviously, wear Hoodies.

What does having different clothes do?

All these different things separate all "types" of people in the British society.

All the "types" of people that I have mentioned are the trouble making ones. The reason for this is because they are the "Viruses of Britain". These people plague Britain with a bad reputation and make people fear to walk around the streets. As I was having a walk in China Town, London, I noticed that a majority of people were looking round their shoulders every now and then.

What is the reason for this?

They are looking round their shoulders because they are afraid. We should not be afraid to roam the streets of London and most importantly, Britain!

Summary:

The people of Britain fear for their lives because of the things that people wear. Is that a good culture?
NO!

People

Our Fault?

Is it our fault that the British culture contains the bad, evil, greedy people?
No.

It is the individuals that do this to our culture. These individuals make us look bad.

It is up to each person how they live their lives, whether it is crime or non-crime.

The people who choose the criminal path bring unhappiness to Britain and the world. This therefore makes our culture bad in many senses.

"Guns don't kill people, people kill people!"

This is an old fashioned saying that is indicating that the weapons (in this case guns) don't kill people. It is in fact us that kill each other. We are the beginning of the chain.

Crime:

All crimes in the world are caused by us.

We are the ones that brainstom the crime, we are the ones that carry out the crime and we are the ones that finish the crime. It is the people of Britain that do this to our culture. They are ruining the culture for other people.

Summary:

It is the people of Britain that do these crimes so therefore it is the people of Britain that make our culture a bad one. Why do the people do this?

That is the question...

Crime

Crimes:

There are so many crimes in the world and I am just going to list the main ones:

Stealing

Drugs

Murder

Rape

Stealing:

This is another bad thing about our culture. It has crime in it.

Stealing is when someone wants something and they

decide not to pay the cost of the thing they are stealing. Stealing usually involves big things. People have desperation for things and therefore steal it if they cannot afford it.

Drugs:

Drugs are a very main part of the British culture. It is not a good one but is nevertheless a big one. It degrades the British reputation. Even though other countries may do it, a survey revealed that Britain has the most drug dealing incidents. Drugs are the things that destroy the British culture (literally!). It kills the people who are in the British culture. Some of these people are bad ones and the others are good. This is an awful part of the British culture.

Murder:

Murder is caused by hatred in someone. They cannot handle the hatred inside of them so they must release it. This also cuts down our British culture. The culture will decrease!
Britain is losing people faster than we are gaining. Soon the British culture will be a mere memory.

Rape:

Love is a great part of the British culture but sometimes it is released and showed in the wrong way.
Rape is once again an awful part of our culture. If people love each other then they must not be evil to one another. It makes us look bad and upsets us.

Summary:

The reason why I have coloured Murder and Rape in red is because these crimes are not usually based on money. This is good to know because that means these people are not as money hungry as others. But they should still be ashamed as they do these crimes. Crime degrades and destroys the British culture. This is a disgusting part of our culture.

Other Cultures

Conflict:

Other cultures/religions are different in many ways. But, they all try to convert people into their culture/religion.

Other cultures usually have conflict over different things. The conflict between each one can vary from small to large problems. This conflict ruins the lives of other people. Conflict can cause many bad things such as war!

This is disgraceful to have in our culture. These people are acting as if they are still babies/school children.

They could just settle their arguments in an adult way.

Summary:

Conflict between religions/cultures is disgraceful and stupid. Although each culture has different beliefs and different minds they still have no reason to fight.

War

Causes:

When a country does something bad or they have disagreements then they decide that they will go to war with each other. Once a country has won a war they start to celebrate. What is there to celebrate about?

They have just killed and injured many people. They have also cut down and upset the culture in which the country holds.

Culture:

People may wonder what this has to do with culture. EVERYTHING!

Culture or religion is usually the causes of wars. But in the end one culture is victorious. But, what is victory in war?

All that has happened is that one side has one the argument and has had their people killed and injured, while the other side has just had people killed and injured.

It is like when my brother and I fight. I win; he loses that's the end. The fight was meaningless and uncalled for.

Summary:

War decimates people and cultures. It is evil and must stop. The bad side to the British culture is that war exists within it.

Accidents

List:

Many "accidents" happen in the British culture. Car crashes, arguments, violence etc.

Bad :

Each time an accident happens then the British culture sinks lower and lower until it cannot sink any lower.

These accidents only make us look bad and cause injury.

If they are accidents, then why do they happen so often?

I listen to the radio everyday and there is always an accident, mainly on the road.

Summary:

Accidents, whether small or not, cause injury and arguments. These attributes of the British culture are not attracting or nice.

Bullying in Schools

Forms of Bullying:

Bullying in school is very bad and it, personally, sickens me.

School doesn't always have to be boring. It is an opportunity to make friends and socialize. But bullies make the life of school hell.

It makes schools look bad and makes students flee from their schools sometimes.

More should be done to destroy and dismantle bullying in Britain. It is unacceptable behaviour. It shouldn't be part of our culture. It lowers the level of our culture.

Summary:

Bullying in Britain should be stopped so that our level of godness can rise. It would make Britain a better place and our

culture would be more peaceful.

Power

What is power?

Power is what the government has. Power is what the queen has. Power is what “celebs” have. The power they have is high and is higher than the power of us. But when their power becomes too big then corruption starts to kick in.

Corruption:

Corruption is when someone has too much power and then abuses their power.

Celebrities are most known to be corrupt. They can get in clubs easily with their name or their money. This creates a bad atmosphere for the poorer people.

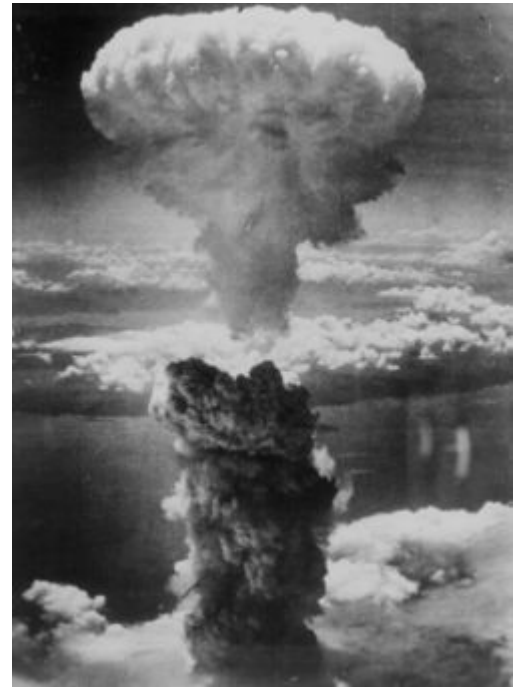

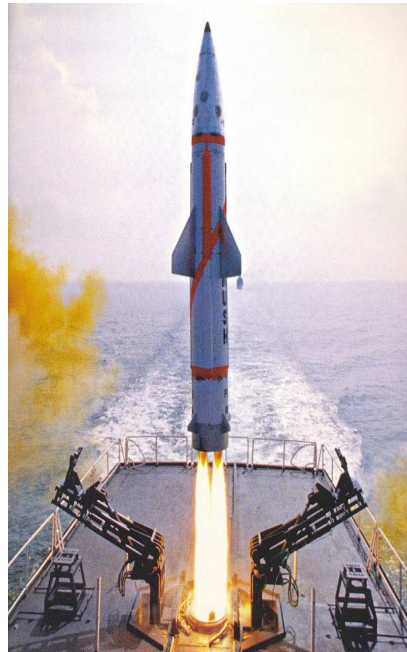

Summary:

Corruption basically eliminates British culture in many ways.

Power is something that must be earned but the only problem is that not all of us have the chance to earn the power.

Overall

All these attributes can destroy the British culture completely. They make the British culture look absolute rubbish. They destroy us and make us look bad.
