Course: Business/ Retail**

Introduction

The following is a business calculations assignment I have been asked source suitable hotel accommodation for four American business consultants who are visiting my company in Galway from Monday 26th May to Friday 30th May 2008.

I have been given a budget of €3000 and I must choose three hotels in the area and find the total cost for accommodation (including breakfast) for four nights for four business people.

I must also check the current exchange between the euro and American dollar and state source and date.

In the Galway city I have made choice of three hotels which are in my point are most fitted the requirements.

I was following the requirements of location, parking, convenient and free wireless internet.

The Victoria Hotel - Victoria Hotel, Victoria Place, Galway
Part of The Byrne Hotel Group

TEL +353 (0)91 567433 FAX +353 (0)91 565880 EMAIL victoriahotel@eircom.net

€1392.00 (2199.36 \$)

Meal expenses for three dinners for four people:

€437.40 (691.10 \$)

Meal is not including in price for three nights.

Conclusion and evaluation

During my research I was started from Goggle search program online and stick my attention on present Clayton Hotel.

By using hotel website found wide options of offers of hotel such as convenient, location, modern design etc.

For short stay present Hotel is ideally fit for our guests (American businessman's) .The Hotel is just opened and has modern meeting -conference rooms, direct dial phone, fax service, connection to the internet, and high level of service. Above that hotel can offer excellent menu at the restaurant and wide choice of beverage in the bar.Exellent service of hotel personal during the stay will make stay unforge ttable.

Having €3000 in my budget I have only spent around 55% of this amount.
