♥ This is a print screen of how many records the hairy database that originally had 51 records but then I added two other records and deleted two so now there is 52 records available in this database.

♥ Here I am going to create a Query, first of all I clicked on the object panel then I had a list of choices. Along the left hand side was a list of things to do i clicked on 'Queries'.

♥ Then after I clicked on Queries I double clicked on 'create query by using wizard'.

♥ Then a Simple query wizard popped up and I had a choice of options.

I am writing this email with concerns about if I could use your copyrighted images of singers for my coursework. Also I will

Database report – Task 5

only use these images for my own personal use and no one else's. I hope you will understand why I need to use your images. Thank you!

Yours sincerely

This is my first page of my newsletter it includes what is in my newsletter and the address. Also the I-tunes logo is included in this; I have also included pictures of some of the I-tunes products.

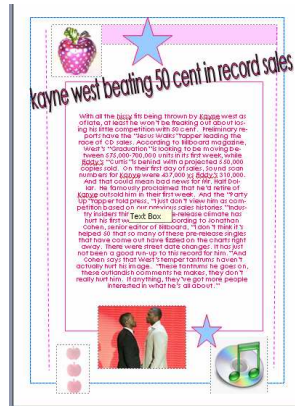

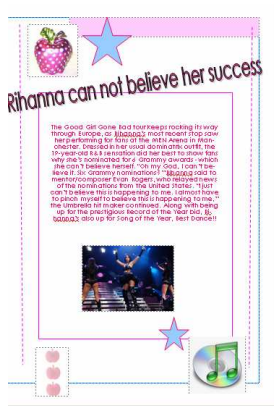

This is my second page it is about I-tunes history and the types of products I-tunes have created it also includes the I-tunes logo.

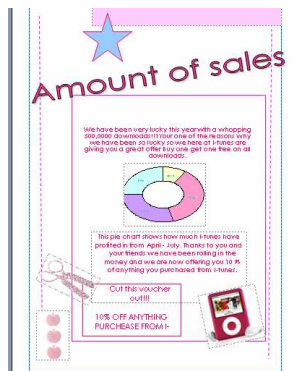

This is my third page it includes the top ten I-tunes downloads and I have also included the I-tunes logo and a special offer.

Database report – Task 5

These are my celebrity gossip columns, in these pages there are various bits of gossip about celebrities.

This is the amount of sales and in this I have included a pie chart.

I have included the images that I have included because they are very suitable for my newsletter.

I think my newsletter will help I-tunes to gain more sales because they will read it and then there will be vouchers and special offers and they will buy I-tunes products and then they will want to buy more so what do we do make more special offers and then gradually build them

Database report – Task 5

down so they pay the full price. That is how my newsletter will help I-tunes create more sales.

I am writing to confirm that I have made changes requested, to the database.

- The changes were that I have removed ▲. smith from the database as requested.
- I have changed T. Park to T. Forrest as she is now married.
- I created a query has been made showing all the customers that live Leeds.
- I spell checked my work and I made a mistake in how I spelled Forrest, I then changed it.

- I spell checked my work and I made a mistake on how I spelled married, I then changed it.

- I spell checked my work and I made a mistake on how I spelled Park, I then changed it.
