

## **PEUGEOT 306 2.0 XSI**

I've selected the Peugeot 306 2.0 as the make and model for sample in this assignment. This particular has been on the market for more than six years. I chose my sample of 15 vehicles from the website [www.autotrader.co.uk](http://www.autotrader.co.uk)  
The method of sampling I used was .....sampling because I chose  
This sample data is likely to be the representation of the population because I used this particular sample.

Below is a list of the Peugeot 306 cars found from the autotrader. The data includes, the age of the vehicle, the current mileage and the price at which it is being offered sale.
